CLEANTEX PROJECT MEETINGS

During the last months, Cleantex partnership has hold two Transnational Project Meetings.

The first one, took place in Athens, under an hybrid format, on June 28th. During the event, the IO1, the design of a *virtual and open training program that will produce educational content about eco-design and circular economy implementation for students and companies*, was exposed by **ENVIPARK**. The partner, in charge, presented advances about it, specifically, of the content, its tentative organization. Also, **the evaluation of the education materials were agreed**, and partners discussed the next steps.

Also, **ENSAIT** introduced the planification of the bootcamp training (IO2), that will be the platform where the summer training course will take place.

The second meeting was physically in Terrassa (Barcelona), on 21st of October. On this meeting, the **IO1 macrostructure** (program and methodologies) **and the microstructure** (content) of this Massive Online Open Course (MOOC) **was already defined, presented**, and partner committed **to develop** the contents **during the following months**.

The IO2, that will dynamize students for seeking textile solutions from practical challenges and cases was presented. Then, **LEITAT** presented the **IO3, the e-book** that will compile practical cases on how **to apply life cycle assessment** and eco-design **in the advanced textile manufacturing industry**.

CURRENT STATUTS OF THE PROJECT

The **survey about textiles and sustainability** was disseminated through students, managers and professionals in the textile sector **emerged results** in form of **needs and lack of knowledge about some topics** in the field. Then, the partners agreed on a content structure and a **methodology for the virtual training program**, the **IO1**. Now, they are developing the content.

The **IO2** bootcamp is another learning activity targeted for the students, that is currently under construction. Via this dynamic method, **students will** be able to **get in touch with real textile needs related with sustainability**, and with teamwork, will face these challenges, **generating creative and innovative solutions**.

LAST NEWS

Dissemination activities

During last months, Cleantex project has been presented in important events, such as did **KTU** in the International Conference *Sustainable Circular Economy - The Future of Industry* which was organized in Vilnius on September 17th by Lithuanian Apparel and Textile Industry Association at the time of fair Baltic Fashion & Textile.

The event counted with relevant personalities such as the General Director of EURATEX, Dirk Vantyghem, and the Minister of Environment of Lithuania, Simonas Gentvilas.

KTU presentation during the event

Another highlightable event where Cleantex project was present is the virtual conference *Towards greener Erasmus+: why and how?*, organized by the Lithuanian National Agency Education Exchanges Support Foundation on May 27th. During the conference, that gathered nearly 1.000 viewers, KTU presented Cleantex project implementation and results.

Next project meeting

Next Transnational Project Meeting will be in **April 2022, in Turin, Italy**.
